

Our Offerings

Yoga programs

Himalayan yoga

The Himalayan tradition of Yoga meditation combines the wisdom of Patanjali's Yoga sutras, practices of tantra and other oral instructions and initiatory experiences. Himalayan teachings are unique and authentic as it is shared from sages. Teaching includes: Purification of thoughts, asanas, mindfulness, breath awareness, pratyahara, japa, shavasana, dharana, dhyana/ meditation.

Ashtanga yoga

Ashtanga yoga **teaches one, how to be** finally leading to liberation. It is a mix of external and internal practices. Program includes topics like Moral code of yoga- yamas and Niyamas, postures, pranayama, senses withdrawal, attention practices leading to meditation and beyond.

Surya Namaskaram/ Sun salutation

Surya Namaskar, which is known as "Sun Salutation", is essentially about building a dimension within you where your physical cycles are in sync with the sun's cycle which run at about twelve-and-a-quarter years. It is not by accident but by intent that it has been structured with twelve postures or twelve asanas in it. If your system is in a certain level of vibrancy and readiness, and in a good state of receptivity, then naturally your cycle will be in sync with the solar cycle.

Meditation programs

1. Chakra meditation

Know the deep inner science of chakras, it's importance, how it functions and experience these energy wheels. Understanding on Subtle channels, associated pranas and chakras is a part of self knowledge to realise our true being.

Chakra awareness, activations, self healing, mantras etc are part of this program.

- Mantra meditation

The science of mantra is based on an understanding of sound vibrations which are primarily centred in various stations. Ultimate purpose of mantra is to go into supreme silence. Here we integrate mantra chanting and meditation with complete awareness and practising it to apply in day to day life for a balanced journey.

This is a special practice of **Himalayan yoga**.

- Connect your master

Master/ Guru is a guide initially for a spiritual practitioner and more than that once we uplift ourselves from student to a disciple. With a form he is called Master, and without form he is your own inner true guiding voice. Meditation on Jesus, Buddha, Krishna, or any forms can be practiced. This meditation is designed to practice connecting to our own inner master in all situations of life. Once touched by a Master out of grace, then we will be in full potential and joy.

- Mother of all

We all love mother and what if we can realise the mother of all or Universal mother, One who nurtures us, protects us, guides us in every act and transactions.

Let's meditate together to realise that we are part of her grace every moment. Meditation on mother would help us in loving ourselves and others by staying connected with the universe.

- Shivoam

Learn the art of mental worship and meditation to abide in that unmoving, unchanging, ever pervading principle called Shiva, the Ultimate. **Shivoam** meditation is for intermediate - advanced practitioners who want to strengthen their practice and journey in spirituality.

- Reiki meditation

Through the systematic meditative methods of reiki, colours, visualisation we provide you a self healing and meditation to touch the deeper aspects of life force energy.

Realising life as a play of energy which ever moving and changing, we train ourselves to become undisturbed. Positive affirmations, manifestations, visualisations are part of this course.

- Full moon meditation

Full moon is the time to amplify and channelise our energies in right direction for a balanced life. It's time when nature is full and near to completion, so full moon meditation will help us in reaching that potentiality wherever you are. Starting or ending a full moon day with meditation is really beneficial for us.

- Here & Now: Self enquiry meditation

Searching for oneself by going outside doesn't help. It explains that if one really wants to understand the world and the universe, he should understand himself on all levels first. This meditation explains how to begin the process by learning about one's own body, mind and to other subtler states of life. This program is designed for beginners to advanced practitioners and non practitioners to examine life.

Our Therapies

- Deep Relaxation

Guided deep relaxation practices is for all who needs to find balance in life, fatigue, to overcome stress and depression, recharge body mind and breath. These effective subtle body techniques will help you to overcome all blockages in life and guide you to relax every time at any place. This is also a preparation for higher meditations.

- Stress management

Understanding stress, anxiety, anger is very much important to overcome it. Dealing with medicines is not the way. Here we investigate how, why and what are these disturbing emotions and then we use techniques to overcome it systematically by inducing right lifestyle, breathing techniques, relaxation's etc.

- MY therapies

By the support of meditation, relaxation and yoga we work closely with people to manage their physical, emotional, mental and energy challenges in life.

Discipline, regular practice, right food and trust is the key to face life and its challenges.

1. Vedic chanting

Vedic chanting improve focus; support memory and mental discipline; improve listening and communication skills; improve breathing capacity; reduce mental and emotional agitation or energise and activate. Many people find their voice empowered. Our teacher will help you to learn from basics of chanting with right pronunciation and meter. We are reviving our old traditions. Join us to experience!

Students yoga

Let our children grow up naturally and joyfully which is their true nature. This program enhances their joy, attention, confidence by applying simple yoga practices, breathing techniques and meditations. Let's teach them today that stress is a big lie!

Stress free workspace

Lets keep our workspace a safe place and not a stress space. If we are not in balance because of body, mind imbalances we lose momentum, then we worry. Using simple effective techniques we could manage our balance,relationships,be productive and help others.
